Recommendations

1. Start Early, Finish Early

- Identify what you don't know as soon as possible — that’s the real secret.

2. Take Action (Just do it)

- Solutions will appear once you start. Don’t wait — act now.

3. Be Proactive

- Own your decisions and drive your progress; You know you can do it.

4. Ask for help

- Don’t waste time struggling alone — people are ready to help if you reach out.

Apply the P4M4 Model

1. Projects Are Your **Priority**

- Add at least one project to your portfolio after every course.

2. Divide and Conquer with Practice

- Progress step-by-step through focused, manageable practices.

3. Begin with the Magic, Grow with Principles

- Start without overthinking; discover the principles powering the "Magic."

4. Master Many Patterns

- Patterns are your secret weapon for solving real-world problems efficiently.
